Greater Noida (INDIA)

CAREER OBJECTIVE

Computer Science undergraduate with hands-on experience developing Python-based AI/ML applications and software projects. Strong foundation in Data Structures & Algorithms, OOP and DBMS, with experience in debugging, data processing and analytical solution development. Co-led a Smart India Hackathon project and interested in building reliable software solutions using modern technologies.

EDUCATION

B.Tech in Computer Science & Engineering	2023 - Present
Noida Institute of Engineering and Technology, Greater Noida	CGPA: 8.71
Senior Secondary (Class XII), Science Stream (PCMB)	2021 - 2023
Sidhi Vinayak Public School, Dadri	Percentage: 80.50%

WORK EXPERIENCE

SEO Executive Intern – Macro Webber Private Limited	Mar 2026 - May 2026
- Gained experience in keyword research, on-page SEO, and website optimization techniques. - Contributed to improving online visibility and search engine rankings through SEO best practices. - Completed practical training and project work in Search Engine Optimization (SEO).	

PROJECTS

MindWell AI - Depression Risk Prediction System	Feb 2026 - Mar 2026
- Developed an AI-powered depression risk prediction system using Logistic Regression, PHQ-9 assessment data, and machine learning techniques. - Implemented sentiment analysis using TextBlob and symptom importance analysis to enhance prediction accuracy and model interpretability. - Designed a trend monitoring framework to track mental health patterns over time and provide explainable risk assessment insights.	
Bail Reckoner - Smart India Hackathon 2024 (Co - lead)	Sept 2024 - Nov 2024
- Developed an AI-driven legal-tech solution to streamline bail eligibility assessment with a transparent, user-centric workflow. - Implemented data processing and analytical logic to support structured decision-making. - Coordinated team discussions, facilitated idea presentations, and contributed to problem-solving, workflow planning, and project execution throughout the hackathon.	

SKILLS

- Programming Languages:** Python, C++, SQL
- Core Computer Science:** Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks
- Artificial Intelligence & Machine Learning:** Machine Learning, Regression, Decision Trees, Random Forest, KNN, SVM, NLP, Sentiment Analysis, LLMs, Generative AI
- Web Development:** HTML, CSS, JavaScript, React
- Databases:** MySQL, MongoDB
- Tools:** Git, GitHub, VS Code, Jupyter Notebook, Google Colab
- Professional Skills:** Problem Solving, Debugging, Team Collaboration, Leadership

CERTIFICATIONS

- Data Structures & Algorithms using Python** - Infosys Springboard
- Explore Machine Learning using Python** - Infosys Springboard
- Object-Oriented Programming using Python** - Infosys Springboard

EXTRA CURRICULAR

- President of VOX (Voice of NIET):** Coordinated industry-interaction events enabling students to directly engage with professionals from organizations like Google Cloud and Microsoft.
- Volunteer Member - SNCF (Charitable Foundation):** Developed teamwork, empathy, discipline, and community engagement skills through active participation in social welfare and service initiatives.
